What's the most obscure CD in your collection?

[<<](#) [<](#) (3/6) [>](#) [>>](#)

71 dB:
The most obscure CD I have is probably "Tuning In" by Kari Väkevä. It's extremely boring and ascetic computer "music". I got the CD for free. I only had to listen to it and write a feedback review for the composer himself.

Heather Harrison:
I have a lot of obscure material and it is taking me a bit of time to think of what must truly be the most.
